

Nothing About Us Without Us; What should "real" community engagement look like?

Thursday 12 May

3-4pm (AEST) | Zoom Webinar

REGISTER ONLINE

Diabetes and health advocate, Renza Scibilia from Diabetes Australia and A/Prof Lucio Naccarella from University of Melbourne, will discuss the realities of community engagement in the health sector, and how it can be done a whole lot better than we're seeing now. The session will explore the ideas of co-design, co-development and co-implementation and provide ideas for moving engagement from tokenism to influence.

Renza Scibilia

Head of Communities and
International Affairs at
Diabetes Australia

A/Prof Lucio Naccarella

Principal Research Fellow,
Centre for Health Policy,
University of Melbourne
